MEMORANDUM FOR: Chief, Military-Economics Division, ORR

ATTENTION:

25X1

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Possible SA-3 Launch Site at Mys Set Novolock, USSR

REFERENCE: (a) Requirement C-RR-3-80,667
 (b) CIA/PID Project C 1402-63

1. This memorandum is in response to your requirement dated 9 October 1963 which requests correlation of ground photography of a reported possible SA-3 launch site at Mys Set Novolock on the Kola Peninsula with the best available maps and vertical photography of the area.

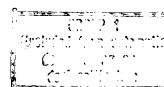

2. After a thorough examination of applicable TALENT and KEYHOLE photography the following statements can be made. 25X1

a. The basic road patterns and the number of buildings present at Mys Set Novolock has remained virtually unchanged since photo coverage of 25X1
 Unless specifically dated in this memorandum, it can be concluded 25X1
 items shown on the attached line drawing, which was prepared from 25X1
 coverage, were evident on the World War II photography.

b. The installation where the missiles were photographed is located on a hilltop at 69-23-52N 33-29-30E (map reference: ACIC 1:50,000, photo mosaic 0051-18/92M). There was no activity at this location in however 25X1
 TALENT coverage of revealed activity of an unidentified nature at 25X1
 this point. Later KEYHOLE coverages of the installation revealed no recognizable changes from the TALENT photography. This installation does not 25X1
 appear similar to any SA-3 site identified in the USSR, to date, on KEYHOLE 25X1
 photography, however it is definitely the location where the missiles were observed on the ground photography. The attached line drawing indicates measurements between unidentified items on this hilltop as imaged on KEYHOLE photography.
